PAIRING OF THE MONTH

Master Bong's Purple Frost with Purple Frost Natural Crumbs

Known as "The McGyver of Pot," Master Bong has chosen a strain that truly lives up to its name: Purple Frost. Purple Frost is not only a deep lavender hue, covered in frosty trichomes;

it is also an exceptionally flavorful strain that is sure to please pure Indica smokers. This is a very relaxing variety that is best for

neutralizing pain and getting a good night's sleep. If

you have a high tolerance and no desire to leave your couch anytime soon, pair your Purple Frost flowers with Purple Frost CO2-extracted Crumbs, and you will reach your desired effect quickly. The perfectly preserved terpene profile of Purple Frost is sweet, like dark cherries and grapes, so we are certain that Master Bong's selection will be a new favorite!

EDIBLE OF THE MONTH

Ice Cream Sandwich

\$12

Creamy cannabis-infused vanilla ice cream sandwiched between two soft medicated chocolate chip cookies; it's the perfect summertime treat!

RECIPE OF THE MONTH

Red White & Bud Fudge

Ingredients:

- 2½ cups sugar
- ½ cup Natural Cannabis Co. CO2 butter
- 5 oz evaporated milk
- 2 cups marshmallow cream
- 8 oz white chocolate chips
- red and blue food coloring

Directions:

- Use foil to line an 8" x 5" baking dish. Spray with non-stick cooking spray. Set aside.
- Combine the sugar, CO2 butter and evaporated milk in a large pot over medium heat, stirring frequently.
- Once boiling, stir constantly for 5 minutes. Add marshmallow cream and white chocolate chips to this mixture and stir until smooth.
- Divide the mixture evenly into 3 bowls. Use the food coloring to make one blue and one red. Leave the 3rd one white.
- Pour the red fudge into the prepared baking dish first, then the white fudge, then the blue.
- Drag a butter knife through the fudge, to create a marbled effect.
- Cool completely and enjoy!

*Disclaimer: Our new Natural Cannabis Co. CO2 Butter contains 2000 mg of THC per jar, is colorless and produces edibles that are not obviously medicated, so keep these treats out of reach of children and pets.

TIP OF THE MONTH/KNOW THE LAW: **LEGALIZE IT!**

Most cannabis industry professionals have come to the same conclusion: that legalization is inevitable in the near future. This signals a great step forward in ending prohibition of this wonderful plant, but many people in the community are concerned about how a recreational cannabis bill would be enacted. Cultivators are concerned about big corporations bullying out small artisan farmers, patients are concerned about skyrocketing prices on their medicine, and others think that quality will suffer. There are also those who are worried about what government entity will be tasked with designing regulatory measures. As a result of these conflicting interests, there are currently three bills being considered: AB 266, AB 243 and SB 643. The Natural Cannabis Company recommends following their progress at canorml.org, and being a part of the *grass roots* campaign for the one you feel is most worthy of your support. Without the dedication of Californians who believe in cannabis there is a good chance that multiple bills could split voters and push legalization back further into the future.

CULTIVATING WISDOM
JULY CULTIVATING TIP

ASK US!

Cannabis plants need lots of sun, well-amended soil and what may seem an excess of attention in order to thrive. Things usually don't go well if they are simply planted in the spring and watered until harvest. The vegetation process that takes place throughout July is essential to the final product. If you have questions about the suitability of your cultivation environment or how to keep your plants healthy, please ask before purchasing your plants, seeds and grow supplies; **ALL SALES ARE FINAL** on these items. Also in our A.G.E. cultivation section, there are many books available that can help beginner and veteran farmers through any issues that may arise during the outdoor growing season.
